Immunohematology Checklist Example

1. **Objectives:** Determine suitability and perform clerical check of samples
   
a. Needs Improvement
b. Meets Expectations
   
   **Answer:** _____

2. Description of Work Done
   
   **Answer:**

3. Perform sample preparation
   
a. Needs Improvement
b. Meets Expectations
   
   **Answer:** _____

4. Description of Work Done
   
   **Answer:**

5. Issue blood and components
   
a. Needs Improvement
b. Meets Expectations
   
   **Answer:** _____

6. Description of Work Done
   
   **Answer:**

7. Perform daily QC of reagents
   
a. Needs Improvement
b. Meets Expectations
   
   **Answer:** _____

8. Description of Work Done
   
   **Answer:**

9. Perform daily QC of equipment
   
a. Needs Improvement
b. Meets Expectations
   
   **Answer:** _____
10. Description of Work Done
   Answer:

11. **Operate and trouble-shoot equipment**: serological centrifuge
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

12. Description of Work Done
   Answer:

13. cell washer
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

14. Description of Work Done
   Answer:

15. Follows lab rules regarding safety procedures.
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

16. Description of Work Done
   Answer:

17. **Procedures**: ABO grouping
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

18. Comments
   Answer:

19. Rh typing
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

20. Comments
   Answer:
21. Other antigen typings
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

22. Comments (please list which typings)
   Answer:

23. Antibody screening test
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

24. Comments
   Answer:

25. Antibody identification: Single
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

26. Comments
   Answer:

27. Multiple
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

28. Comments
   Answer:

29. Antibody titration
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

30. Comments
   Answer:
31. Absorption (optional)
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

32. Comments
   Answer:

33. Elution (optional)
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

34. Comments
   Answer:

35. Direct antiglobulin test
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

36. Comments
   Answer:

37. **Compatibility test**: Routine
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

38. Comments
   Answer:

39. With single antibody
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

40. Comments
   Answer:
41. With multiple antibody
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

42. Comments
   Answer: 

43. Cord blood work-up
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

44. Comments
   Answer: 

45. Exchange transfusion work-up
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

46. Comments
   Answer: 

47. Rh immune globulin work-up
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

48. Comments
   Answer: 

49. Transfusion reaction work-up
   a. Needs Improvement
   b. Meets Expectations
   Answer: _____

50. Comments
   Answer: 
51. Comments on Student's Performance:
   Answer:

52. Name of Evaluator(s):
   Answer:
